# Choose Your Handle & Bucket

## Handle Type

### Quick Change Mop Handle

- Easy release trigger mop head to be quickly discarded and replaced.
- Durable, lightweight, great for general-purpose cleaning.

### Resin Jaw Mop Handle

- Jaws open to allow easy mophead installation with twist action to secure mophead.
- Heavy duty frame great for mop heads with 5" bands or mop heads with scrub pads.

### Steel Mop Handle

- Spring action locks mop head into place.
- Chrome head prevents corrosion.
- Great for all mop heads, from general-purpose cleaning to heavy duty cleaning with 5" bands or mop heads with scrub pads.

## Heavy Duty Bucket Type

### Mop Bucket & Side Press Wringer

- Great for all types of cleaning including heavy duty.
- Heavy duty design is great for all mop heads up to #32.
- Heavy duty handle with soft rubber grip makes lifting and paving easier.
- Holds up to 32 quarts, usable at 30 quarts.

### One-Piece Mop Bucket & Wringer

- Lighter weight, yet strong design is great for smaller size mop heads up to #24.
- Great for medium size general-purpose cleaning.
- One-piece design includes integrated bucket and wringer.
- Holds up to 32 quarts, usable at 16 quarts.
