

Floor Squeegees

Foam Rubber = All Surfaces

Ideal for removing water from any type of surface and floor, including tile and stone.

- Great for getting into and removing liquids from grout lines.
- Flexible rubber blade made of black, closed-cell foam rubber.

Synthetic Rubber = Most Surfaces

Excellent for smooth and semi-smooth surface applications, such as warehouses and garages.

- Soft, synthetic rubber blade.
- One-piece, split-tip blade extruded as one with the base.

Hard Rubber = Smooth Surfaces

Best for smooth or finished concrete surfaces. Ideal for removing water, snow/ice, chemicals and mud.

- Straight, firm rubber blade.
- Made of real vulcanized, natural rubber.
