# Wet & Dust Mop Handles

## Product Usage

Commercial strength steel handles for all wet and dust mopping applications. These handles fit most wet mop heads and the #985 fits standard dust mop frames.

### #981 Steel Mop Handle

- Galvanized steel wing nut mop frame – traditional style handle easily attaches to any Libman mop head
- Electrostatic coated paint forms to any handle dings and will not chip
- Iron phosphate conversion coating prevents rust
- Steel handle with 5" polypropylene handle grip and hanger hole for easy storage

Total Height	65"	Handle Diameter	1"
--------------	-----	-----------------	----

### #982 Quick-Change Mop Handle

- Unique quick-release lever with hinged head that opens completely to easily remove and add mop heads without touching dirty mop head
- Durable resin construction threaded onto the handle
- Electrostatic coated paint forms to any handle dings and will not chip
- Iron phosphate conversion coating prevents rust
- Steel handle with 5" polypropylene handle grip and hanger hole for easy storage

Total Height	60"	Handle Diameter	1"
--------------	-----	-----------------	----

### #983 Resin Jaw Mop Handle

- Resin jaw mop frame spins to tighten and loosen – easily clamps onto any Libman mop head
- Electrostatic coated paint forms to any handle dings and will not chip
- Iron phosphate conversion coating prevents rust
- Steel handle with 5" polypropylene handle grip and hanger hole for easy storage

Total Height	58.5"	Handle Diameter	1"
--------------	-------	-----------------	----

### #985 Dust Mop Handle

- Chrome plated, steel clip on swivel mop attachment – handle used for #922 and #924 Dust Mops
- Electrostatic coated paint forms to any handle dings and will not chip
- Iron phosphate conversion coating prevents rust
- Steel handle with 5" polypropylene handle grip and hanger hole for easy storage

Total Height	60.5"	Handle Diameter	1"
--------------	-------	-----------------	----
